Dear Friends:

I am happy to present to you information about the educational opportunities from elementary to college for everyone in Pembroke Pines.

Some adults consider education an art and science only for the young, and miss out on every challenging opportunity for themselves.

The City Commission and I know the value you place on living in a community with great schools and so we established the Education Advisory Board whose purpose is to focus on the relationship between our schools and our citizens.

The members of this board have volunteered their time to research and present this information to help you explore the educational opportunities for everyone.

Sincerely,

Mayor Frank C. Ortis
