## Appendix - Building Permit Fee Schedule - Section 150.16

For this section the following determinations shall be in place:

Residential shall mean Single Family, Duplex, and/or Townhouse building types.

Non-Residential shall mean Multi-Family, Commercial, and/or Industrial building types.

### I. Building Permit Submittal Fee (Deposit)

A. Residential (Accessory Structures and/or Uses)	\$100.00
B. Residential (New Construction and/or Additions)	\$500.00
C. Non-Residential	\$500.00

If permit estimate is less than above, applicant shall pay estimate in full.

### II. Building Code Services Permit Fee Structure

#### A. Valuation

The Building Permit Fee shall be based upon the cost of construction as attested to by the applicant on the submitted permit application. The Building Official, in addition to verifying the completeness and accuracy of the application, shall review the application for the cost of construction. If the Building Official determines that the cost of construction attested to does not accurately reflect the cost of construction for the scope of work covered by the permit, he/she can use any of the following to calculate the fee:

1. Copy of a signed contract for work to be completed under requested permit.
2. Apply the values in the most current edition of the RS Means Construction Valuation system.

The greatest of the methods of the applicant's statement of value, or (1.) or (2.) above shall be used in calculating the permit fee.

Reference: The initial permit fee shall be based on the total cost of construction. All additional sub permit fees shall be based on the job value for the work covered by that particular permit.
