

City of Pembroke Pines Building Division Permit Issued Prior To Product Approval Review

To the Applicant:

The Florida Building Code 2004 Edition (hereinafter "FBC"), allows you to obtain a building permit prior to submittal of certain product approvals (See Chapter 1, Broward County Administrative Code). However, the *Product Approval Table* requires that submittal to the Building Division, and approval of the product approval by the Building Division, shall be obtained prior to installation of the applicable product.

Be aware that if you choose to proceed with the project prior to the approval of the product approval, and the installation of components as listed in the *Product Approval Table* is commenced without approval of the applicable product approval by the Building Division, you shall be in violation. In accordance with FBC, you shall be charged a fine for each day the violation exists. The fine shall be \$50.00 and shall be added to the permit fees.

As provided by FBC, the interpretation of the Building Official may be appealed to the Broward County Board of Rules and Appeals.

Sanford Laguna, Chief Building Official

The job number is: _____ Application no. is: _____

Applicant name (print or type) _____

Product(s) not yet approved (door, garage doors, shutters, skylights, windows)
