BUILDING DIVISION

Notice to Builders and Storm Protection Contractors

Re: **Storm protection inspections after January 1, 1999 (South Florida Building Code, Broward Edition, 1999, Section 305.2, Hurricane Shutters)**

(Revised: underlined words have been added)

After January 1, 1999, for inspection of storm protection all storm protection shall be completely installed.

An attachment inspection shall be approved prior to the installation of storm protection or after installation and inspection of storm protection. Effective date for the required attachment inspection shall be applications submitted after January 1, 1999. This shall not apply to permanently attached storm protection.

Exception: Existing buildings with certificates of occupancy shall not have required exits covered with storm protection for inspection. For the purposes of this rule, escape shall mean the same as exits.
