

The City of Pembroke Pines Charter Schools invites students, parents/guardians, educators, and youth advocates to

RAISING POSITIVE CHILDREN

PRESENTATION SERIES

**BUILDING STRONG DIGITAL CITIZENS
IN A CONNECTED WORLD**

Monday, April 6, 2026 • 6:30 pm

River of Grass Theater 17195 Sheridan Street
Pembroke Pines, FL 33025

Guest Speaker: George Couros

We invite parents, caregivers, and community members to a presentation by George Couros, an Innovative Teaching, Learning and Leadership consultant, speaker, educator, author of *The Innovator's Mindset* and *Innovate Inside the Box*, and co-owner of IMPress Books.

Couros will speak on the topic that technology isn't just something children consume — it's a space where they can create, connect, and make a difference. This keynote shifts the focus from fear to possibility, highlighting real examples of young people using digital tools to build their futures and serve others. Parents will gain practical strategies for promoting strong digital citizenship, addressing online risks, setting healthy boundaries, and confidently guiding their child's digital journey.

Join us for this insightful session and take the first step towards building a healthier and safer relationship between your kids and technology.

*Community resource information will be available.
Admission and Parking are FREE*

For more information, please call 954-450-1030

Raising Positive Children: Building Strong Digital Citizens in a Connected World

Pembroke Pines, FL (March 4, 2026) – As part of an ongoing series, parents/guardians of school-age children, community members, educators and youth advocates are invited to a special presentation, "Raising Positive Children: Building Strong Digital Citizens in a Connected World." The featured guest speaker will be author and educator George Couros and will be **held at the River of Grass Theater,**

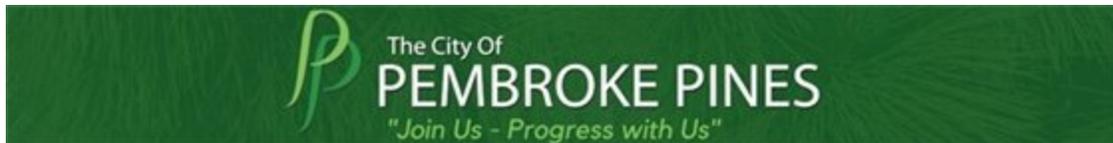

located at 17195 Sheridan Street. It will take place on Monday, April 6, 2026 at 6:30 pm.

Couros is an Innovative Teaching, Learning and Leadership consultant, speaker, educator, author of "The Innovator's Mindset" and "Innovate Inside the Box," and co-owner of IMPress Books.

As part of his presentation, Couros will speak on the topic that technology isn't just something children consume, but rather it's a space where they can create, connect and make a difference. The keynote shifts the focus from fear to possibility, highlighting real examples of young people using digital tools to build their futures and serve others. Parents will gain practical strategies for promoting strong digital citizenship, addressing online risks, setting healthy boundaries and confidently guiding their child's digital journey.

Admission and parking are free. Community resource information will be available. For more information, please call 954-450-1030. Tickets are not required.
