Re: Construction of Concrete Driveway in the Swale Area

Address \_\_\_\_\_ Pembroke Pines , Fl. 33\_\_\_\_\_

Legal – Lot\_\_\_\_Block\_\_\_\_Subdivision\_\_\_\_\_

Dear Sir,

I am the owner and resident of the single family house located at the subject address. I am requesting permission to construct a concrete driveway in the swale area, between my front property line and the edge of roadway pavement.

I am informed that City Ordinance No. 973 allows driveways constructed of non-asphalt materials provided, however, the City shall not be responsible for replacing non-asphalt driveways unless the property owner pays the cost thereof to the City within ninety (90) days after work by the City has commenced. I have received a copy of City Ordinance No. 973 and have clearly understood its contents.

I understand that swale areas are designated to facilitate the installation and repair of the utility lines. In case of such repair to an existing line or installation of a future line, I shall be completely responsible to repair any damage to my driveway. I shall provide an expansion joint at the property line.

I do hereby agree to hold the City of Pembroke Pines agents, servants, employees and elected officials harmless from any claim whatsoever arising out of the construction and maintenance of the concrete driveway in the swale area of the subject property.
